Schedules Disclaimer***General***

Each of the debtors (collectively, the "Debtors") are filing their Monthly Operating Reports (the "MORs") solely for the purposes of complying with the monthly operating report requirements applicable in the Debtors' chapter 11 cases. The financial and supplemental information contained herein is presented on a preliminary and unaudited basis, remains subject to future adjustments, and may not comply in all material respects with generally accepted accounting principles in United States of America ("U.S. GAAP"). The MORs should not be relied on by any persons for information relating to current or future financial conditions, events, or performance of any of the Debtors or their affiliates. The financial information has been derived from the books and records of the Debtors. This information, however, has not been subject to certain procedures that would typically be applied to financial information in accordance with U.S. GAAP, and upon application of such procedures, the Debtors believe that the financial information could be subject to material changes. The results of operations contained herein are not necessarily indicative of results which may be expected for any other period or for the full year and may not necessarily reflect the combined results of operations and financial positions of the Debtors in the future. The Debtors reserve all rights to amend or supplement the MORs in all respects, as may be necessary or appropriate. Nothing contained in the MORs shall constitute a waiver of any of the Debtors' rights or an admission with respects to their chapter 11 cases. The financial information in the MORs has been prepared on a going concern basis.

Accounts Receivable

The amounts reflected in A/R are shown net of the relevant revenue related reserves. These amounts may not be indicative of the ultimate settlement amounts as they may be offset by customer liabilities at settlement, or other changes as a result of the claims reconciliation process.

Fixed assets

Fixed assets are carried at net book value, which is not indicative of potential sale prices in liquidation.

Equity

This report does not include non-debtor Yellow Corporation owned entities which are consolidated for GAAP presentation. As a result certain eliminations are excluded and equity shown for each debtor entity may not be accurate.

Intercompany Transactions

Intercompany transactions between the Debtors have not been eliminated in the financial statements contained herein. No conclusion as to the legal obligation related to these intercompany transactions is made by the presentation herein.

Liabilities Subject to Compromise

As a result of the chapter 11 filings, the payment of prepetition indebtedness is subject to compromise or other treatment under a chapter 11 Plan. The determination of how liabilities will ultimately be settled or treated cannot be made until the completion of the claims reconciliation process in conjunction with the Bankruptcy Court approval of the chapter 11 Plan. Accordingly, the ultimate amount of such liabilities is not determinable at this time. Prepetition liabilities that are subject to compromise have been reported at the amounts expected to be allowed as claims, even if they may be settled for lesser amounts. The amounts currently classified as liabilities subject to compromise are preliminary and may be subject to future adjustments depending on Court actions, further developments with respect to disputed claims, determinations of the secured status of certain claims, the values of any collateral securing such claims, rejection of executory contracts, continued reconciliation or other events. No estimates are included for contingent or disputed claims or any off-balance sheet liabilities including any potential claims associated with the multiemployer pension plans.

Reorganization Items

Expenses and income directly associated with the chapter 11 filings have been reported separately in the income statement as reorganization items. Reorganization items includes expenses related to legal advisory and representation services, other professional consulting and advisory services, debtor-in-possession financing fees and changes in liabilities subject to compromise recognized as there are changes in amounts expected to be allowed as claims.

Liquidation Basis Adjustments

In September accounting, the Company adjusted certain assets carrying values to zero where no cash inflows or recoveries are expected or such recoveries are speculative and undetermined at this time. These assets include certain prepaid contracts, debt issuance or other deferred debt costs, and operating lease- right of use assets. As of November 30, no fixed asset values have yet been adjusted to reflect expected liquidation value.

Workers' Compensation

The Company maintains workers' compensation insurance covering the vast majority of its employees. The Company has not been able to obtain replacement insurance in certain states since the prior insurance policies and programs were cancelled or not renewed since the Petition Date. The Company has limited the number of employees working on site and the employees' duties in those states.
